INTERNATIONAL OLYMPIC COMMITTEE

## FACTSHEET <br> WOMEN IN THE OLYMPIC MOVEMENT

UPDATE - May 2014

## MISSION

The IOC is committed to gender equality in sport.
The Olympic Charter states that one of the roles of the IOC is "to encourage and support the promotion of women in sport at all levels and in all structures, with a view to implementing the principle of equality of men and women" - (Rule 2, paragraph 7). Its commitment extends well beyond its efforts to increase women's participation in the Olympic Games. The IOC also recognises that gender equality is a critical component of effective sports administration and continues to support the promotion of women and girls in sport at all levels and structures.

## WOMEN IN THE OLYMPIC GAMES

Women first took part in the Olympic Games in Paris in 1900, four years after the first Olympic Games of the modern era in Athens. Despite the reticence of the reviver of the modern Games, Pierre de Coubertin, 22 women out of a total of 997 athletes competed in just five sports: tennis, sailing, croquet, equestrian and golf. But only golf and tennis had events for women only. Female participation has increased steadily since then, with women accounting for more than 44 per cent of the participants at the 2012 Games in London, compared with 23 per cent at the Games in 1984 in Los Angeles and just over 13 per cent at the 1964 Games in Tokyo.
In the last 20 years, the IOC has also increased the number of women's events on the Olympic programme, in cooperation with the International Federations (IFs) and the Organising Committees. With the addition of women's boxing, the 2012 Olympic Games in London were the first in which women competed in every sport on the Olympic programme.
Also, since 1991, all new sports wishing to be included on the Olympic programme must feature women's events

## WOMEN IN SPORTS ADMINISTRATION

While the participation of women in physical activities and the Olympic Games has steadily increased, the percentage of women in governing and administrative bodies of the Olympic Movement has remained low.

## OBJECTIVES

To remedy this situation, the IOC set the following objectives:
The NOCs, IFs, National Federations and sporting bodies belonging to the Olympic Movement must set the objective of reserving at least $20 \%$ of decision-making positions for women (particularly in all executive and
legislative bodies) within their structures by the end of 2005. This objective was not achieved.
However, a first objective (having at least 10\% of women in decision-making positions by December 2000) was met by more than $61 \%$ of NOCs and $52 \%$ of IFs.

The IOC is nevertheless aware that such an objective can be attained only in successive stages. A number of NOCs and IFs have already shown their willingness to work on achieving parity between men and women.

## WOMEN IN THE IOC

The first two women, the Venezuelan Flor IsavaFonseca and Norwegian Pirjo Haeggman were co-opted as IOC members in 1981. As of May 2014, 24 women are active IOC members out of 106 (around 22.6\%). Four women are honorary members.

In 1990, for the first time in the history of the IOC, a woman was elected on to the Executive Board (Flor Isava Fonseca), and in 1997, another woman, Anita DeFrantz, became an IOC Vice-President (1997-2001). In 2004 Gunilla Lindberg was also elected as IOC VicePresident. Olympic champion Nawal El Moutawakel from Morocco was elected as a member of the IOC Executive Board in 2008 and IOC Vice-President in July 2012. . In 2013, four women (26.6\%) are members of the IOC Executive Board: Nawal El Moutawakel, Gunilla Lindberg, Claudia Bokel and Anita L. DeFrantz

More and more women are chairing IOC commissions, such as the Coordination Commissions for the Rio 2016 Olympic Games, the PyeongChang 2018 Olympic Winter Games and the $2^{\text {nd }}$ Winter Youth Olympic Games in 2016 in Lillehammer, as well as the Women and Sport Commission and Athletes' Commission.

## WOMEN IN NOCS AND IFS

Women are increasingly taking leading roles within NOCs, albeit at a slower pace than female athletes are being accommodated on the competition field. Actually, 11 NOCs are headed by female presidents. A further 24 females served as secretaries general and several more as vice-presidents, deputy secretaries general, treasurers and deputy treasurers in the executive committees of the 204 NOCs.

The International Sports Federations (IFs) are making more effort to increase the number of women on their decision-making bodies. IOCRecognised Federations are leading the way, with around 26 per cent of their executive boards made up of women, while Winter and Summer IFs' governing bodies are made up of around 17 per cent women

## THE IOC WOMEN AND SPORT COMMISSION

Created in 1995, the IOC's Women and Sport Working Group served as a consultative body composed of representatives of the three constituent bodies of the Olympic Movement (the IOC, IFs and NOCs), plus an athlete representative and independent members. Chaired by Anita L. DeFrantz, the Working Group became a full Commission in 2004, and advises the IOC President and the Executive Board on which policies to adopt in order to increase female participation in sport at all levels.

## INFORMATION SEMINARS

Through its Commission, the IOC has put in place a programme of regional and continental seminars for female administrators, coaches, officials, athletes or sports journalists involved in the national or international sports movement.

## EDUCATION AND TRAINING FOR WOMEN

The IOC has been able to address the need to further develop educational and training programmes targeting women in sport. With this, the IOC aims to enable women to take leadership positions in the administrative structures of NOCs and National Sports Federations.

## OLYMPIC SOLIDARITY PROGRAMMES

Olympic Solidarity offers a series of assistance programmes for athletes, young hopefuls, coaches and sports managers, and these benefit a growing number of women. Furthermore, a special "Women and Sport" programme was created to help more particularly the NOCs of developing countries to put in place other types of projects in the field of
women and sport, such as research, national seminars or participation in meetings. This programme also serves to finance the NOCs' participation in the IOC's regional seminars.

## WORLD CONFERENCE

Every four years, the IOC organises a world conference on women and sport, where the primary objective is to analyse the progress made in this field within the Olympic Movement and to define a prioritised plan of action to improve and increase the participation of women in sport.

The fifth edition was held in Los Angeles, USA, in February 2012 with over 700 delegates from 121 countries in attendance.
The delegates unanimously approved "The Los Angeles Declaration", a series of recommendations aimed at promoting gender equality in sport and using sport as a tool to improve the lives of women around the world. The Declaration focused on two main themes: - The need to bring more women into management and leadership roles

- The need to increase collaboration and partnerships, especially with UN organisations, to promote gender equality.
