

National and Kapodistrian University of Athens
Department of Chemistry
Seminars Winter Semester 2025-2026

- **Monday October 13th, 11:00 a.m.**

«Developing Functional Porous Frameworks: From Reticular Chemistry to Energy and Environmental Applications»

[Dr Giasemi Angeli](#)

Associate Researcher

Theoretical and Physical Chemistry Institute, NHRF

- **Wednesday November 5th, 1:00 p.m.**

«The Potential Role of Iron Sulfide in Prebiotic Chemistry»

[Professor Wolfgang Weigang](#)

Professor of Inorganic Chemistry

Faculty of Chemistry and Earth Sciences,

Friedrich Schiller University Jena, Germany

- **Friday November 14th, 12:00 p.m. (online)**

«Unlocking the potential of iron(I) metalloradicals (tentative)»

[Dr Oliver Townrow](#)

Institute of Nanotechnology

Karlsruhe Institute of Technology (KIT), Germany

- **Monday November 24th, 10:00 a.m.**

«TBA»

[Dr Nektarios N. Lathiotakis](#)

Director of Research

Theoretical and Physical Chemistry Institute, NHRF

- **Monday December 8th, 10:00 a.m.**

«Proteoform-based Drug Repurposing»

[Dr Theodora Katsila](#)

Research Associate Professor

Institute of Chemical Biology, NHRF

- **Monday December 15th, 10:00 a.m**

«Solar-Driven Photocatalysis for Hydrogen Production and Carbon Dioxide Conversion»

[Dr Georgios Charalambidis](#)

Associate Researcher Theoretical and Physical Chemistry Institute, NHRF

- **Monday January 19th, 10:00 a.m**

«TBA»

[Prof. Emmanouil Pitsinos](#)

Professor,

Department of Chemistry, NKUA

Seminar Regular Time: Monday at 10:00 a.m.

Onsite: A2 Seminar Room, E Wing, 2nd floor, Department of Chemistry, Panepistimiopolis
Zografou

Online via Webex platform:
